

WADE IS NOT LIKELY TO BE PUT ON STAND

Only to Prove His Insanity
Will Accused Man Be
Called to Testify.

MORE ALIENISTS LISTED

State Will Attempt to Riddle
Defence's Claim That Lad
Is a 'Moron.'

Special Dispatch to The New York Herald.
BRIDGEPORT, Conn., Jan. 8.—Alienists for the State will be called to the witness stand when the trial of Edward E. Wade for the murder of George E. Nott is resumed at 10:30 o'clock Tuesday morning. Dr. John C. Lynch of this city and New York will be recalled to resume his testimony where it was interrupted by the adjournment of court last evening.

The Bridgeport alienist was in the middle of his examination when the hour for closing arrived. Drs. Godfrey and Stevens of this city have yet to be called to the stand to testify for the State.

Whether the accused youth will be called to the witness stand when the alienists have finished testifying is problematical. William F. Conley, Jr., his counsel, when asked if his client would take the stand, said he did not believe it fair to ask for such information. Another attorney, Frederick H. Morgan, replied to the query: "Nothing doing."

From the nature of the evidence advanced so far in the trial, the only purpose of the defence in putting Wade on the stand would be to show that he is insane through his replies to questions. After the alienists have testified and have been cross-examined, the State and defence will turn up their cases and the arguments will begin. As it appears now, it should be late Wednesday or some time Thursday before the case goes to the jury.

Counsel, witnesses and others connected with the trial welcomed the week-end recess which will give them an opportunity to recover from the trying ordeal of the last few days. The strain was beginning to tell particularly on the women involved when court adjourned.

The defence was checked by the events of yesterday, when in the examination of alienists for both sides it was admitted that young Wade has always been a mental defective. He was classified as a "moron," a person of adult years and physical development but with the mental capacity of a child from seven to twelve.

Too Old to Fight in Civil War; Dies in 109th Year

WHEELING, W. Va., Jan. 8.—George Crow, who was rejected because of his advanced age by a recruiting officer when he sought to enlist for military service in the civil war, died in the family home, Denver Hill, near Littleton, W. Va., last night.

Mr. Crow recently celebrated his 108th birthday anniversary by riding eight miles on his horse to the home of one of his sons.

\$5,000,000 SET ASIDE BY RED CROSS FOR SICK

Red Cross Medical Relief to Work Separately.

WASHINGTON, Jan. 8.—The American Red Cross executive committee has appropriated \$5,000,000 from the society's reserve fund to carry out its programme of furnishing desperately needed medical assistance for children in Europe.

In making this announcement tonight Dr. Livingston Farrand, chairman of the central committee of the Red Cross, said the scope of the society's relief operations in Europe was being altered to the extent that it might be confined almost entirely to this work.

"The work," said Dr. Farrand, "should not be confused with that of feeding several millions of children who are not afflicted by disease but who are threatened with starvation. The general feeding problem is to be met by the European Relief Council, composed of eight leading relief organizations."

Nearly twenty child relief units of the American Red Cross are already in the field, Dr. Farrand said, most of them in Poland, and ultimately there will be at least a hundred.

PROSECUTOR IS SLAIN.

LOUISVILLE, Jan. 8.—Sam K. Baird, 48, acting county attorney of Shelby county and former County Judge of Spencer county, was shot and killed at Shelbyville today in the home of R. L. Prewitt, 54, a retired flour miller, as he was descending the stairway in the Prewitt home.

Feeling against Prewitt caused officials to bring him to Louisville for safe keeping. Mrs. Prewitt, who was separated from her husband, contemplated bringing an action for divorce. She asserts that with Baird, her attorney, she had gone to the Prewitt home this morning to secure some of her personal effects, and that during a controversy between the two men Baird was shot. Prewitt says he believed Baird was armed, and asserts that he shot in self-defence.

TO BE NURSE IN ALASKA.

HASTINGS-ON-HUDSON, N. Y., Jan. 8.—The appointment of Miss Katherine W. Bridgman of Hastings-on-Hudson as missionary nurse in Alaska has been announced by the Board of Missions of the Episcopal Church. She will be stationed in Fort Yukon, a village 1,100 miles up the Yukon River, just above the Arctic Circle, and expects to remain there five years. Miss Bridgman is a daughter of Mr. and Mrs. W. A. Bridgman, formerly of New York.

ALLEN BACKS LEGION IN WAR ON TOWNLEY

Kansas Governor Points Out
Peril of Invasion by Non-Partisans.

WAR RECORD ASSAILED

Leader Seeks to Create Class
Warfare in Appeals to
Farmers.

TOWNEA, Jan. 8.—Attacking the invasion of Kansas by A. C. Townley and Non-Partisan League organizers from North Dakota, Gov. Henry J. Allen in a statement given out to-night declared Townley's efforts to "defeat the country at home" during the war and the fallacy of the league's Socialistic policy justify any body of men who leave the State in their hostility to "Townleyism."

Gov. Allen expressed approval of steps taken by former service men to combat the campaign directed by Townley to intrude the Non-Partisan League among the farmers of the State. Although the league is an organization was withdrawn from the fight, the former service men who compose its membership have banded together in a "defence league" to prevent Townley from gaining a footing in the State.

"Townley has been able to present to

North Dakota a lot of dreams which seemed real," said the Governor's statement. "But the weakness and costs of his scheme have finally been exposed and Townley is hunting for new fields."

"Townley and his tribe opposed appropriations for the war supplies upon which the very life of American Legion boys depended at that hour. In the early days of the war their attitude discouraged voluntary enlistment and discouraged the selective service law. Lacking the courage to go to war for Germany they became, in effect, German emissaries in the rear."

"The former service men are opposing Townleyism with orderly propaganda, and so long as they express their opposition with the brave self-restraint which they now exhibit, the State will have every reason to be grateful."

"This effort of Townley's comes at a time when he might expect to gain some headway in Kansas. There is discontent over the unfortunate conditions which have come to the farmer in the period of reconstruction."

"I am in sympathy with every honest effort to aid the farmer. I believe that the forthcoming Legislative session should give the most constructive attention to his problems, but I share with the legion the belief that Townleyism means merely the effort to work upon the prejudices for the purpose of creating a class warfare which will benefit no one."

"It is merely another effort on the part of those who do not farm to 'farm the farmer.'"

EAGLE ATTACKS CHILDREN.

TAMPA, Jan. 8.—A bald eagle attacked two children on a residence street here about dusk last night. D. G. Hooke, hearing the children screaming, secured a gun and killed the bird, which measured six feet from tip to tip. The children were not hurt.

DETROIT BEGINNING INDUSTRIAL REVIVAL

5,000 Men Put Back to Work
and Healthy Signs Con-
tinue.

END OF SLUMP IS NEAR

Automobile Plants Prepare for
Resumption After Short
Period of Suspension.

DETROIT, Jan. 8.—A beginning of industrial revival in Detroit was noted during the last week in a survey of conditions made to-day by George W. Grant, secretary of the Employers Association. Approximately 5,000 men have been put back to work, and indications are that a gradual though probably a slow improvement will continue until the automobile industry has reached its normal activity, Mr. Grant said. He added that manufacturers here generally expect the end of the slump in retail business to follow the annual shows, now about to open.

Although some of the largest factories in the city are completely closed, and no definite date has been set for their opening, there are indications, Mr. Grant said, that the inactivity may not be extended.

tended. The Ford and Dodge plants are among these.

Numerous other factories are maintaining skeleton forces, to which small numbers of men are being added from time to time.

The Liberty Motor Company to-day announced that several hundred additional men would be taken on January 17, and that the force would be gradually increased, while unofficial report was that the Continental Motors plant would reopen in some departments next Monday.

The Dodge plant, it is said, is held in readiness to resume operations within a week should it be decided to open. While a notice posted at the Ford plant says it will not reopen this month, there are reports that the suspension may not be for that long a time.

MOTOR WORKERS REHIRED.

DETROIT, Jan. 8.—The Liberty Motor Car Company, that has been operating with a decidedly curtailed staff, announced to-day that it would reemploy several hundred additional men January 17. The action will mean increased production by several automobile parts factories here, it was announced.

SING SING INDUSTRIES DOUBLE 1919 INCOME

Prison Report Shows Earning
of \$150,071.

John P. Joyce, superintendent of industry at Sing Sing prison, in his annual report for 1920, submitted yesterday to Warden Lewis E. Lawes, reported a net profit of \$150,071 for the year, a gain of 50 per cent. This report was included in the general report prepared by Warden Lawes and sent yesterday to Charles F. Rattigan, Superintendent of Prisons.

Prof. N. J. Henzel, principal of the prison school, in his report said that the daily average attendance was 211, 98 of them under 20 and 6 over 50 years of age. Of those who were sent to the prison during 1920 356 were foreign born. One hundred and sixty-two of the prisoners were sent to Sing Sing for burglary, 76 for assault, 4 received life sentences, 20 were sentenced to die in the electric chair.

Let conditions were assertions of certain respondents, while others declared that a lot of "loose thinking" had resulted in the country becoming "rumor ridden." Some emphasized that too much publicity had been given to "depressing rumors."

A general opinion expressed was "the less legislation about business, the better."

FOOD SHIP DEPARTS.

PHILADELPHIA, Jan. 8.—Laden with food supplies for the Near East, the relief steamship Fort Armstrong left Philadelphia to-day for Greece and Turkey. Capt. Henry Smith of the East Atlantic City, is in command of the vessel, which carries 4,000 tons of flour, sugar, macaroni, lard and meats of various kinds.

The first stop will be at Chios, Greece, where 8,000 bags of flour will be landed. The next stop will be at Piraeus, where sugar and rice will be landed. The other stops will be at Candia, Crete and Constantinople.

The Fort Armstrong, after completing the present voyage, will return to load another cargo for the same points.
